Home Learning Activity Grid

<u>Activity</u>	<u>Learning Link</u>
 Plant Detective – Plant a seed or bulb and keep a simple diary of what happens. Draw, photograph or write about the changes.	Science – plants; observation
 Map My World – Draw a map of your local area. Include a key and use symbols to show important places.	Geography – maps
 Engineering Challenge – Build a tower or bridge from recycled materials. Test it and see how you could improve your design.	DT; Science; problem-solving
 Retell It! – Choose a favourite story and create puppets, masks or props before performing it to your family.	English; Drama; Oracy
 Minibead Investigator – Explore outside and create a tally of the different minibeads you find. Where did you find them?	Science – living things; Maths
 Recipe Challenge – Follow a recipe together. Read the instructions, measure ingredients and explain the steps to someone else.	Maths; English; Oracy
 House Detective – Look carefully at your home. What materials have been used? Why do you think they were chosen?	Science – materials
 History Interview – Interview an older family member about their childhood. Find out about toys, school, games or family life.	History; Speaking & Listening
 Weather Station – Record the weather for a week. Use symbols, temperatures or simple tables. What patterns do you notice?	Geography; Science; Data
 Nature Art – Collect fallen natural materials and create a picture, sculpture or repeating pattern.	Art & Design; Maths
 Would You Rather? – Create five “Would you rather...?” questions for your family. Listen to everyone's answers and explain your own choice.	Oracy; PSHE
 Maths Detective – Find examples of multiplication, division, fractions, money or measurement in everyday life.	Maths
 Family Shop – Set up a pretend shop. Give everything a price and practise choosing items, paying and working out change.	Maths- money
 Write to Someone – Write a letter, postcard or email to a family member. Tell them about something you have been doing.	English – writing
 Around the World – Choose a country. Find it on a map and discover three things about it. Share your discoveries with your family.	Geography; Oracy
 Family Nature Challenge – Go somewhere outdoors together and see how many different plants, trees, birds or natural features you can spot. Create your own challenge or bingo card.	Science; Art; Geography
